

Digital Storytelling Workshop

Session 4: Assembling Your Story

Facilitators

Rani Sanderson

Robert Kershaw

Assembling Your Story

AGENDA

- Check-In
- Review Recording Voiceover
- WeVideo Editing Tutorial
- Getting You Rough Edit Sta
- GOALS
- Editing Your Digital Storytred
- Review for Session 5

Creating a WeVideo Project

1. Log in to your WeVideo account and click on the Projects tab.
2. Click on the blue-and-white “+” icon in the bottom right and choose Create new project.
3. Give your project a Title and a short Description.
4. Choose a Project type. Project types determine who can edit your project:
 - Personal — Only you can edit the video (**Use this for projects created with StoryCenter**).
 - Collaborative — Multiple people can share media and collaboratively edit the same video.
 - Shared — Multiple people can share media, but each creates and edits their own video.
5. Click Next.
6. If you chose a Collaborative or Shared project, you will be prompted to add members to the project using one of following options. Otherwise skip to step 7,
 - Add all members — In this case it will add everyone with a StoryCenter WeVideo account to the project. **Don't do this!!**
 - Select members/groups — Choose people to add from a list of existing BMC account holders.
 - Invite with link — Gives you a web link to send people whom you want to add to the project. This option is useful if some of your group members do not yet have WeVideo accounts; they will be prompted to create an account when they click on the link.
7. You will be prompted to Add Media from a list of existing clips; **you can do this later from the Media tab so feel free to click Next to skip this step.**
8. Click Finish.

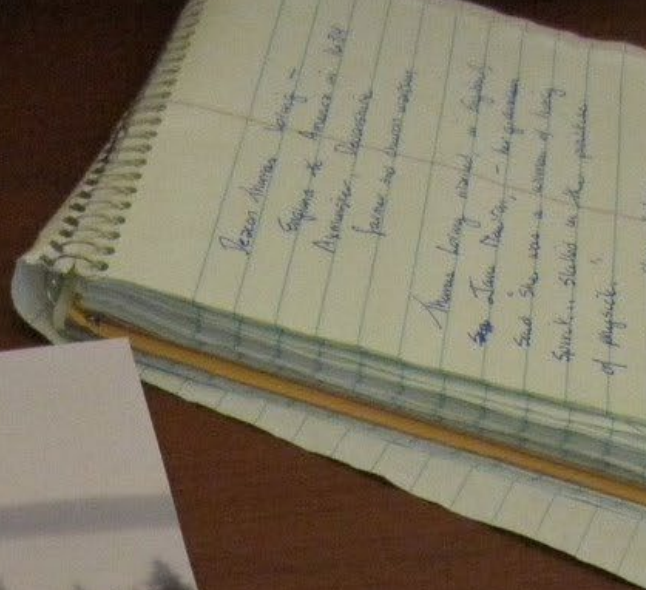

The Visual Narrative

- **BEGINNING** - shots that establish the story's background and setting the scene
- **MIDDLE** - pictures that convey drama, and transitional photos that guide the viewer from one thought to the next. **Crisis and return from crisis**
- **END** - photos close a story and/or look to the future. **Redemption**

“Homework”

- Build Rough Edit

Office Hours

TBD
