## II. Campus Center Advisory Board

<b>Name</b>	<b>Division</b>	<b>Department/Area</b>	<b>Status</b>
Julie Keiffer-Lewis	Intercultural and International Studies	African American Studies (AFAM)	Full Time Tenured
	1. I served on this committee last year. 2. As a biracial, queer, Black woman I do believe that diversity matters because it allows for a more-inclusive experience for everyone. I think it's important to have diverse perspectives when on a committee that focuses on the needs of the entire DA community.		

<b>Name</b>	<b>Division</b>	<b>Department/Area</b>	<b>Status</b>
-------------	-----------------	------------------------	---------------

Sunghae Jung	BHES	Nursing	Full Time Not Tenured
<p>1. With my unique background as a Registered Nurse (RN) and experience in high-tech marketing and sales, I bring a blend of analytical problem-solving, strong communication skills, and a focus on outcomes to the Campus Center Advisory Board. My healthcare experience equips me with a deep understanding of operational efficiency, safety, and the importance of facility design in supporting both staff and community needs. Coupled with my sales and marketing expertise, I can effectively collaborate, advocate, and communicate key policy changes and facility renovation plans to diverse stakeholders, ensuring alignment with the center’s long-term goals.</p> <p>2. My experience as a Registered Nurse (RN) and in high-tech marketing and sales has given me a deep appreciation for diversity and interdisciplinary collaboration, which are crucial for addressing the needs of a multifaceted community like De Anza’s. In healthcare, I’ve worked with diverse populations and interdisciplinary teams, which has taught me how to evaluate complex operational systems with a focus on inclusivity, safety, and functionality. In the tech sector, I’ve honed my skills in strategic planning and communication, enabling me to effectively translate complex policy and renovation needs into actionable plans. This combination of healthcare and high-tech experience positions me well to provide oversight on major policy issues and facility renovations, ensuring that the campus center operates efficiently and meets the needs of a diverse student body, faculty, and staff. I provide oversight to approximately \$80 million dollars every fiscal year for a large healthcare organization and understand the complexities to navigate fiscal responsibility of funds.</p>
