**To:** Guided Pathways Core Team

**From:** Mallory Newell, Office of Research and Planning

**Date:** 6/14/2024

**Subject:** Fall 2023 and Winter 2024 Village Center Demographics

**Overview:** De Anza implemented six Village Centers aligned with each meta major in spring 2023. Each Village Center has a physical space and offers various events throughout the year. This report provides an overview of the demographics of students who visited a village center in fall 2023 or winter 2024.

**Methodology:** Student ids were provided to the research office by the Guided Pathways team. Ids were matched to fall and winter enrollment. This resulted in 1,148 matches out of 1,260 for the two terms combined, for a match rate of 91%. The count of students represents unique student counts.

**Table 1. Village usage by Reason for Visiting**

Note: Includes duplicated student counts to reflect the diversity in reasons visiting a village.

- Students tend to visit the villages to relax, followed by a workshop or event.
- BF and PST have the highest rates of students attending office hours in their village.
- HLS has the highest rate of students seeing a counselor in their village.
- PST and SSH have the highest rate of students studying in their village.
- A small rate of students across villages are visiting to receive support services.

**Table 2. Race/Ethnicity**

	Fall 2023				Winter 2024			
	Villages		Student Population		Villages		Student Population	
	Count	Percent	Count	Percent	Count	Percent	Count	Percent
